Ref.: Ms. No. EJOR-D-14-02261R3
An Iterated Greedy Heuristic for a Market Segmentation Problem with Multiple Attributes
European Journal of Operational Research

Dear Professor Roger Ríos-Mercado,

I am pleased to inform you that your paper has been accepted for publication in the European Journal of Operational Research.

The PDF file of the final version of your article will be available on ScienceDirect shortly after the corrections to the proofs have been received by Elsevier. I suggest that you read them carefully and check them once more against the original; you are the only one responsible for doing this. Together with the proofs you will receive an order form for reprints.

Your paper from now on is no longer under my control. Please, address queries only to the Journal Manager:
Kate Partner
E-Mail: K.Partner@elsevier.com

When your paper is published on ScienceDirect, you want to make sure it gets the attention it deserves. To help you get your message across, Elsevier has developed a new, free service called AudioSlides: brief, webcast-style presentations that are shown (publicly available) next to your published article. This format gives you the opportunity to explain your research in your own words and attract interest. You will receive an invitation email to create an AudioSlides presentation shortly. For more information and examples, please visit http://www.elsevier.com/audioslides.

Yours sincerely,

Roman Slowinski
Editor
