Dear Roger Z. Ríos-Mercado,

Congratulations! The Editorial Board has **accepted** your manuscript "**Metaheuristic Approaches to Natural Gas Pipeline Network Optimization Problems**".

The manuscript will soon be put into production and in a few weeks the first author of this chapter will receive the proofs for review where you can make any corrections if necessary. Please white list the production email address <[Springer-HbHES@spi-global.com](mailto:Springer-HbHES@spi-global.com)>. This will ensure the proofs do not get junked or caught in the spam filter of your inbox.

With thanks and best regards,

*The Springer Reference Editorial Team*
