Structural properties of feasible bookings in the European entry-exit gas market system

[Schewe, L](#); [Schmidt, M](#) and [Thuerauf, J](#)

Jun 2020 |

[4OR-A QUARTERLY JOURNAL OF OPERATIONS RESEARCH](#)

18 (2) , pp.197-218

In this work, we analyze the structural properties of the set of feasible bookings in the European entry-exit gas market system. We ... [Show more](#)

Bookings in the European gas market: characterisation of feasibility and computational complexity results

[Labbe, M](#); [Plein, F](#) and [Schmidt, M](#)
Mar 2020 | [OPTIMIZATION AND ENGINEERING](#) 21 (1) , pp.305-334

As a consequence of the liberalisation of the European gas market in the last decades, gas trading and transport have been d ... [Show more](#)
